4 Simple Tips To Get The Most Out of This Class:

- 1. Print out this workbook before the class starts so you can write down your notes as you listen.
- 2. Review the topic outline so you know what to listen out for. Make sure you've set aside private time for this session so you'll be able to focus and fully receive the benefits of the session.
- 3. During the event, write down ALL the interesting and new ideas and inspirations you get while listening that way you won't lose the information most relevant to you.
- 4. Think of how you can quickly implement the secrets revealed in this session.

Preparation Tips:

- Make sure you are in a quiet place where nothing can distract you, and that you are not
 driving a car or any other vehicle. Be in a comfortable position so you can fully take part
 in any guided meditation and visualization exercises that may be a part of the class.
- Stretch your muscles before starting the class. Stretching loosens the muscles and tendons allowing you to sit (or lie) more comfortably. Additionally, stretching starts the process of "going inward" and brings added focus to the body.
- Take a deep breath. Breathing deep slows the heart rate and relaxes the muscles to help you have a comfortable experience during any guided meditations or visualisations that will happen during the class.
- You can use candles and other spiritual tools in the room to further help you feel at ease.

Thank you for joining our online class. We hope you enjoy it!

Case studies:

"In 2008 I was an entrepreneur and my company was about 5 years old. It was May 2008, and we were making maybe a quarter of million dollars in revenue a month, we had just over 20 employees, but we were losing \$15k a month. Our bank balance was getting lower and lower and lower and lower. My business partner and I had still had debt to pay and it was really hard knowing that our business was about to collapse.

What was sad is that 5 years into building a company, I knew that if I lost this business, I would be worse off than if I never started. Now that was kind of the time when we saw an add in the papers for this seminar happening by T. Harv Eker. We went to the seminar really skeptical and Mike felt like we were not learning much and we should leave, but we had a gut feeling to stay and I am glad we did.

By day 3, literally, I remember turning around to Mike and there were tears streaming down his eyes because that seminar touched us so deeply. The big lesson I got is that wealth and being successful, abundance wise, has more to do with your mindset and your attitude towards money than any other single things. By Dec 2008 we grew or business revenue wise 400 %. Mindvalley become what we know today. By 2009 we have built and epic office space, we have paid off all our debts, the company had grown 400 in just under 1 year, that was HUGE. And our lives were never the same again. Today, Mindvalley continues in a massive positive upswing. We changed our wealth mindset and that sparked everything else. And until you go straight to the mindset and you identify the stories you're telling yourself about wealth and abundance and being wealthy you will never really going to obtain your full potential in that field.

Even though I run a personal growth company and I studied hundreds of authors, Harv is perhaps is the one I spend the most time studying. We spend 70% of our waken hours just trying to earn a living but so many of us stagnate and stay at this specific level because we never bother to go deep within our minds and identify the believe systems that we have about success and abundance and riches. When we remove the beliefs that are holding us back and swap in beliefs that empower us, this is when you really really grow in your career as an entrepreneur and in your levels of work and abundance."

"I am so looking forward to watch the masterclass with T. Harv Eker about how to become a spiritual millionaire and here is why. Up until a few years ago I was always focus on creating more wealth and attracting ore money, I read "Think and Grow Rich" and studied it, but for me whenever I just focus on purely on money created a lot of stress and struggle in my life. I always was left feeling a little bit empty if I just chased money all the time. But then I discovered Harv and his work. I went to see him live and I read his book Secrets of the Millionaire Mind again and again.

What I love about Harv is the way he combines being spiritual with being really rich as well. Because absolutely you can be really kind and generous and loving and open and happy and conscious, spiritual and create load and load of money, load of abundance. And the combination for me is absolutely essential if you want to live a

truly fulfilled Big Life. So that's why I am super excited for this masterclass. In terms of the impact that he had on my life, incredible.

When I started learning form Harv I was doing ok but after that I started a 6-figure business, I was working from the beach just a couple of day part time. And this year it looks like the business will do 7 figures so with am I learning from Harv not only I am earning more and more money but I am living my purpose more and following my passion and I am becoming more and more happier So if you are interested in creating more abundance, in making a great living doing what you love and ensure being really really spiritual and getting really, really rich, and rewarded for your unique talent, I absolutely sincerely invite you to join Harv Eker for the masterclass. He has had a huge impact on my life and I am sure Harv will help you too. So I urge you to sign up and make sure you show up. Peace!"

SELF REFLECTION:

The right questions can spur your subconscious to feed you the right answers...so ask yourself.

What will your life be like if your money mindset changes?

How can I contribute to myself, my family, my community and those around me if I can enhance my abundance to the point where I can not just provide for my own best needs — but also have enough to share. ?

What will I be able to attract in my life when I am able to shift my believes about money and being rich?
